AGENTIC AI FOR CITIZEN-FACING LICENSING AND COMPLIANCE

TEAM NAME	ONYX
TEAM MEMBERS	Rajdip Dhar · Imon Patra Raktim Chakraborty · Anish Goswami
TRACK	Agentic AI
PROBLEM STATEMENT	The "Red Tape" Bureaucracy Navigator

One sentence in. A sourced licence plan and review-ready forms out. The citizen always signs.

AGENTIC AI FOR CITIZEN SERVICES

TEAM ONYX

Red Tape Navigator

The problem Citizens and small businesses lose weeks to scattered portals, outdated PDFs and contradictory rules, and often pay an agent to decode them.

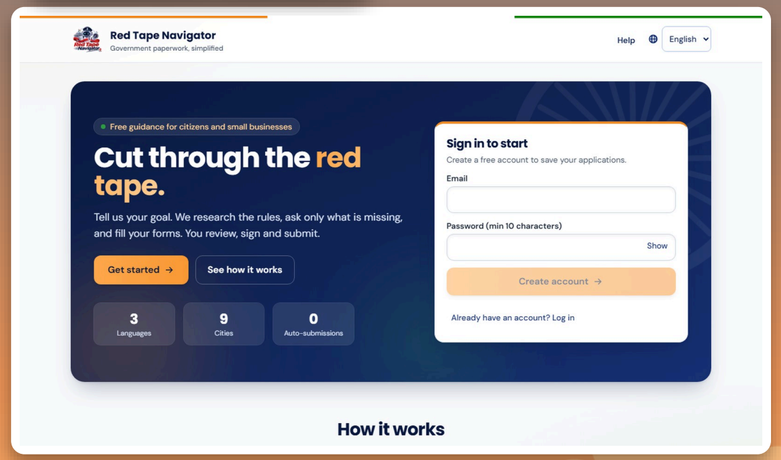

Proposed Solution

1. **The idea** A citizen states a goal in one sentence; an AI agent researches the rules, interviews them and fills the forms.

2. **How it solves it** One guided session replaces weeks of searching, decoding and re-typing across departments.

3. **What is unique** Asks only what is missing, cites every rule to its official source, and the citizen signs. Nothing is auto-submitted.

FROM ONE SENTENCE TO A REVIEW-READY FILE

Working Solution

Red Tape Navigator

1 Understand

Reads your goal in plain words, in any language

2 Research

Finds licences, fees and documents, with sources

3 Interview

Asks only what is missing and checks each answer

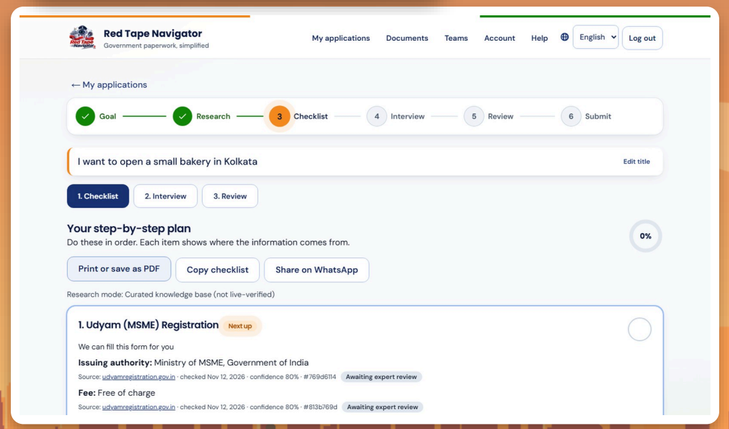

4 Fill forms

Fills official PDFs and portal key-in sheets

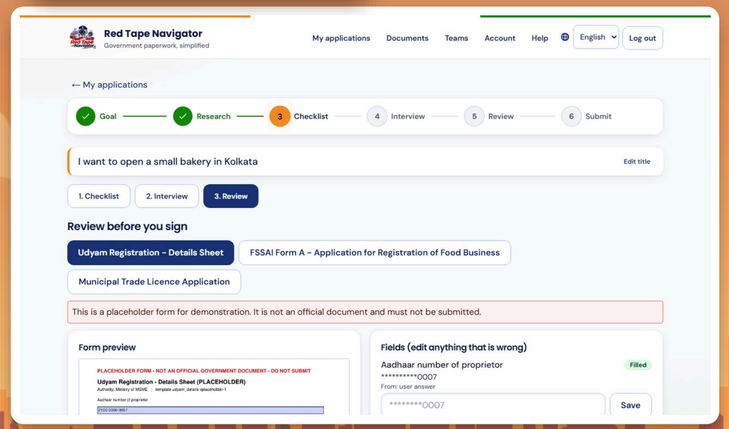

5 Review

You check every field, sign and submit yourself

STEP 2 · CITED PLAN

STEP 5 · REVIEW

A real-life scenario

Priya types: "I want to open a small bakery in Kolkata."

She gets 6 licences in order, answers 22 questions and sees 3 filled forms.

She reviews, consents, downloads and submits herself.

BUSINESS MODEL, RESOURCES AND ROADMAP

TEAM ONYX

Feasibility & Practicality

Red Tape Navigator

1 How easily can it be built?

- Works on any phone or laptop browser
- Rules drawn from official public pages
- Built in stages, each testable on its own

2 Resources needed

- Time: working core first, then city by city
- Cost: free for citizens, low running cost
- Support: legal volunteers, municipal partners

3 Challenges and our answers

- Rules change: freshness checks, expert flags
- Private data: encrypted, consent, erasable
- Wrong advice: cited sources, human signs

4 Future scalability

- From 9 cities today to every state
- More languages and voice-first access
- SMS and WhatsApp reminders for renewals

Proposed business model Free for citizens · licence for municipal bodies · assisted service via service centres and CAs

OUTCOMES FOR CITIZENS AND GOVERNMENT

Impact & Benefits

Red Tape Navigator

6
Licences mapped from one sentence

22
Questions, each asked once

3
Languages: English, हिन्दी & বাংলা

0
Auto-submissions, you stay in control

Who benefits

- Citizens and first-time entrepreneurs
- Vendors, bakers, home businesses
- Departments: cleaner, complete files

Short and long term

- Now: faster, error-free first filing
- KPIs: time to file, rejections, visits
- Later: verified rules for every city

Social, green, economic

- Social: equal access in 3 languages
- Green: paperless, less travel
- Economic: no agent fees

Aligned with Digital India · Ease of Doing Business · MSME Udyam registration · DPDP Act 2023 consent and erasure

Our ask: a pilot with a municipal body to put this in citizens' hands.

TRANSPARENT **PRIVATE** **IN CITIZEN HANDS**
